PROFILE SUMMARY

An Enthusiastic & Highly Motivated individual who has clear understanding of role and responsibility associated with being Software Engineer, Eager to learn new technologies and methodologies, always willing to innovate the new things which can improve the existing technology.

EDUCATION

- SCS Coding Boot Camp in Software's & Applications
  University of Toronto, Canada   *Year 2023*
- Post Graduate Diploma in Building Systems Engineering Technician
  Seneca College , Toronto   *Year 2020*
- Bachelor's Degree in Mechanical Engineering
  Gujarat Technology University – India   *Year 2017*

AT PRESENT

- Pursued my passion for software structures through advance coding bootcamp electives in software systems, architecture, and modelling.
- Excelled in database architecture coursework.
- Created J2EE programming code and applications.
- Assisted in maintenance of software for engineering applications.
- Analysed user needs and proposed design software solutions to meet them.
- Supporting testing operating systems-level software and filed 150+ upgrade and bug fix reports.
- Provide technical support to computer operating systems software and assist in evaluation, selection, installation, and maintenance of systems software and hardware for university.
- Install, configure, support, and update Windows and Linux operating systems, ensuring compliance with security requirements and up-time requirements.
- Configure and support IIS and Apache web servers to provide end-users access to websites.
- Install and support commercial and custom applications; install routine updates and troubleshoot issues to sustain workflow.
- Design, code, test, and implement custom applications using Agile software development methodologies.
- Facilitated installation, configuration, and routine updates on Windows and Mac computer systems.
- Documented and reported hardware and software issues; followed up on technical issues with computer lab managers.
- Handled database and Web site programming tasks (primarily using Java, C, C++, HTML and SharePoint), working an average of 15 hours per week while maintaining a 3.5 GPA.

SOFTWARE ENGINEER

TECHNICAL SKILLS

Frameworks & Platforms

Java script, HTML, CSS

jQuery ,Bootstrap

API's ,Node.js, React,

Model view controller

Object relational mapping

Object oriented programming

Progressive Web application

MERN (MongoDB, Express, React, Node)

Operating Systems

Linux, iOS, Windows

Cloud Platform

AWS, Azure & Google Cloud

Database:

NoSQL , MY SQL, SQL Lite, Oracle

PERSONAL DETAILS

INTEREST

Music, Movie, & Travelling

LANGUAGE PROFICIENCY

English, Hindi, Gujarati
